

NEW RECORDS FOR SPEED IN MIAMI'S REGATTA

DEMAND

Release of Americans Captured
On Prize Ship Yarrowdale

FAST LOSING PATIENCE

And Officials Believe President
Wilson Will Soon Go Before Congress

Washington, Feb. 15.—A peremptory demand on Germany for the release of the seventy-two American seamen of the prize ship Yarrowdale, was prepared by the state department, today, with the president's approval.

Officers are reticent about the communication, but admitted that it will go forward shortly, through the Spanish ambassador at Berlin.

Complete data, showing the treatment accorded German sailors in the United States, accompanies the demand.

Many officials of the administration have come to the conclusion that unless there is a decided change in Germany toward the interests of the United States, it is only a matter of days when the president will go before congress.

PHYSICIANS DESIRE TO ESTABLISH FREE CLINIC IN MIAMI

A most interesting and instructive session of the Dade County Medical society was held at the office of the president, Dr. B. F. Hodson, avenue C, last night. Aside from the able reports and discussions of clinical cases so helpful to the practicing physicians, there was a movement inaugurated whereby in connection with the associated charities it is proposed to establish a free clinic within the city to render competent aid to the indigent under a faculty composed of all the reputable physicians of the community who will give certain hours of their time each day and week to the work of diagnosis and treatment.

Dr. Samuel Wesley Smith of New York city, now stopping at the Halcyon, favored the society with a most helpful and interesting talk on many medical subjects from the results of thirty-five years of practice, and further offered to deliver a public lecture in Miami on the achievements of Henry M. Stanley entitled "From the Workhouse to Parliament," the proceeds to go to the establishment of the proposed free clinic. Dr. Smith is a most interesting and instructive talker, and a committee was appointed to arrange for such a lecture to be given in the near future, the date and description of the lecture to be announced later.

It is hoped and believed that every physician and public spirited individual in the city will co-operate with the medical society and the associated charities in making this much needed movement a rousing success.

Yarrowdale Prisoners Have Been Released, Says Berlin Dispatch

Berlin, Feb. 15.—The American seamen brought as prisoners to Germany aboard the Yarrowdale have been liberated.

Washington Comment.

Washington, Feb. 15.—It had been confidently expected that Germany would release the Yarrowdale sailors without much more delay, disposing of one of the most pressing questions arising after the rupture of relations. There is virtually no hope, however, that more serious trouble with Germany will be postponed much longer. It is regarded inevitable that the president will go to congress before it adjourns, in less than three weeks, and

NO BATTLES OF IMPORTANCE

Although There Was Considerable Activity On All the Fronts

Associated Press, Feb. 15.—While fighting is going on at all principal theatres of the war, in none has there occurred any battle of great importance.

There is considerable aerial activity on the front in France and many artillery duels of great violence in the region of Ypres and at Verdun.

In Galicia, north of the Tarnopol-Zolhoff railroad, the Germans entered the Russian trenches capturing three hundred prisoners and destroyed the tunnels the Russians had dug beneath the trenches.

In Volhynia surprise attacks by the Germans against the Russians were successful.

Galatzon, a principal town of Rumania was bombarded by the Germans. The Germans also repulsed an attempted advance of the Rumanians along the Sereth river.

Italians in the Macedonian theatre have retaken Hill Number 1050, east of Paralovo, and the German casualties were heavy.

Austrian guns are bombarding heavily the Italian lines east of Gorizia and on the Carso plateau.

ACQUITTED AND THEN ARRESTED

Minister Who Sent Out Naughty Publication, Still In the Toils

Tampa, Fla., Feb. 15.—J. E. Wray, a former Methodist minister, of Live Oak, Orlando and Lakeland, was acquitted in the federal court here today of the charge of mailing "certain letters" giving information where obscene literature may be obtained. The court ordered Mr. Wray's dismissal, saying the description in letters was not sufficient to assure the court that they could be used in returning an indictment.

He was rearrested, charged with expressing a "lewd and lascivious publication" in violation of interstate commerce laws, and released on a bond of one thousand dollars.

OPTIMISM IN CUBA.

Havana, Feb. 15.—Despite plotting among members of the Havana police against the government there is more optimistic tone in government circles tonight, due to the loyalty of the navy. It is believed Santiago will soon be recovered from the revolutionists.

AMENDMENT FAVORABLY REPORTED BY COMMITTEE

Washington, Feb. 15.—The national prohibition amendment to the constitution was favorably reported from the judiciary committee of the house today, with the prediction by Chairman Webb that it would pass this week.

Yarrowdale Prisoners Have Been Released, Says Berlin Dispatch

Berlin, Feb. 15.—The American seamen brought as prisoners to Germany aboard the Yarrowdale have been liberated.

Washington Comment.

Washington, Feb. 15.—It had been confidently expected that Germany would release the Yarrowdale sailors without much more delay, disposing of one of the most pressing questions arising after the rupture of relations. There is virtually no hope, however, that more serious trouble with Germany will be postponed much longer. It is regarded inevitable that the president will go to congress before it adjourns, in less than three weeks, and

FLORIDA

Boys Get Into A Skirmish With A Band of Mexican Bandits

SHOTS ARE EXCHANGED

When Bandits Attempt To Cross the Rio Grand River At Zapata

Laredo, Texas, Feb. 15.—Twenty-six Mexican bandits and a detachment of Florida infantry were engaged in a skirmish, last night, near Zapata.

One Mexican was captured and several horses were taken.

The soldiers fired upon the bandits when they crossed the Rio Grande.

The fire was returned by the Mexicans, who fled down the river, pursued by the troops.

Captured Men Killed.

Hachita, N. M., Feb. 15.—Bodies identified as those of Andrew Peterson, High Accord and Burton Jensen, were found late today, by Lem Pillsbury, General Pershing's scout, three miles west of the Corner ranch.

The men were captured by Mexican raiders of General Salazar's command, on Monday, according to Bunk Spencer, an American negro, who was released to come for a ransom for himself and wife.

Salazar sent word that he would soon raid an American town, leaving destruction worse than the Columbus raid.

The bodies of the three Americans were found fifty feet apart. Each had been shot many times through the head. McCord's head was mutilated with machetes. All were stripped of clothing, hats, and shoes. Pillsbury was convinced they were carried from American soil to Mexico and killed. The government agent after investigation reported to Washington that Mexicans under Prudence Miranda were eating dinner on the American side when Peterson, Jansen and McCord rode up unarmed. The Americans were made prisoners.

STEAMSHIPS MAY ARRANGE TO SAIL

New York, Feb. 15.—Steamships flying neutral flags, detained since the inauguration of Germany's unrestricted submarine campaign, will probably resume their sailings if plans to substitute Halifax for Kirkwall as a port of call for examination can be arranged by the British authorities. It became known tonight that these plans are virtually complete.

JACKSONVILLE RED CROSS.

Jacksonville, Feb. 15.—Pursuant to instruction from the central committee in Washington, the local chapter of the American Red Cross is endeavoring to organize its forces for constructive work in connection with the grave international crisis, now confronting the United States. The amount of work necessary to place the chapter on what is considered an efficient war basis, is herculean in its proportions and will require the earnest co-operation of every member of the chapter.

Besides a membership campaign, which the chapter plans, it must also endeavor to assemble an immense stock of hospital and surgical supplies of all kinds, as well as enroll volunteers, who desire to serve in the various departments of the Red Cross work.

DIRECTOR OF THE MINT HANDS IN RESIGNATION

(Special to The Herald.) Washington, Feb. 15.—F. J. H. Von Engleken, of Palatka, recently appointed head of the Farm Loan bank at Columbia, today denied the report that he will continue to serve as director of the mint.

He has already handed his resignation as director of mint to Secretary McAdoo, and expects to leave here in a few days to take up his duties at Columbia.

Large stock Mazda Lamps just received.—Riley-Milan Hardware Co.

ORDERS ARE RESCINDED

And American Relief Commissioners Will Be Allowed To Remain

London, Feb. 15.—Representatives of the American Commission for the Relief of Belgium, have not been withdrawn from the occupied portions of Belgium and northern France, as previously announced, but will remain for the present.

It is now stated that the commission today received a dispatch from the office at Rotterdam stating that at a meeting held at Brussels, the German authorities announced that all representatives will remain on the same footing as heretofore.

Will Play Fair.

London, Feb. 15.—A Reuter dispatch from the Hague says that the German legation says it addressed an official note to the diplomatic controller of nutrition work, allowing the Belgian committee to continue, and the American minister at Brussels will be given an opportunity to participate in the central management of the nutrition work.

The legation further states that the authorities in future, as in the past, will be willing to accede to every demand of the commission.

INDICTED THE SOUTHERN CO.

Officials and Employees of Express Co. Face Charges In Atlanta

Atlanta, Feb. 15.—Indictments charging a violation of the state prohibition laws were returned against the Southern Express Company, and two employees, W. T. Jordan and John Barrow.

The company is charged with bringing liquor to Atlanta for delivery to persons with fictitious names.

The employees are charged with delivery of liquor on Sunday. The men were released on bonds of five hundred dollars each.

Alex George, a storekeeper, is charged with getting liquor under a false name and was also indicted. He was released under a bond of five hundred dollars.

The formal indictments are to be served on the officials of the company.

SUB COMMITTEE TO INVESTIGATE

And Main Leak Committee Adjourns and Leaves For Washington

New York, Feb. 15.—Leaving further examination of brokers' statements and their dealings for customers on the stock exchange during the month of last December, to a subcommittee of three, the congressional leak committee today adjourned its public hearings.

Most of the committee returned, tonight, to Washington. The action was explained by Sherman L. Whipple, the committee's counsel, as that the committee did not consider it profitable to take the time of the full committee when more urgent matters demanded the presence of the members at the capital.

LOWER CALIFORNIA PATROL

Mexico City, Feb. 15.—The ship Ondina has been placed at the disposition of the authorities at La Paz, lower California, and will be used to patrol the coasts of that territory.

WANTED

Several boys between age 14 and 18 for carrier service. Prefer boys in high school. Apply Herald office afternoons 3 to 5 p. m.

CRIME

For Persons In Dry States To Purchase Liquor If Amendment Goes Through

DRASTIC PROVISIONS

Are Attached To Postoffice Bill Steered Through Senate By Senator Reed

Washington, Feb. 15.—The senate today adopted an amendment to the postoffice bill, offered by Senator Reed, making it a crime for persons in dry states to order, purchase and cause to be transported intoxicating liquors into such states as have prohibited the sale of liquors.

Newspapers and magazines, containing liquor advertisements, are barred from circulation through the mails in such states.

The punishment for either offense is a fine of not more than one thousand dollars or imprisonment for not less than six months and not more than two years.

The amendment must be accepted by the house before it becomes law.

The amendment must

If the Reed amendment to the postoffice bill becomes a law it will operate against the provision of various states permitting the importation of limited amounts of liquor for individual use.

CAR SHORTAGE TO BE RELIEVED

Railroads Declare A Practical Embargo On Freight For Europe

Washington, Feb. 15.—Representatives of thirty of the chief railroads of the country, today, took summary action to relieve the shortage of freight cars and the traffic congestion at eastern ports, now approaching an acute stage on account of the curtailment of trans-Atlantic sailing because of Germany's submarine campaign, when at a meeting, attended by Interstate Commerce Commission officials, they adopted a regulation amounting almost to an embargo on all export shipments through eastern ports until a part of the vast accumulation awaiting shipment is cleared away.

Eastern roads promised to move empty cars eastward as fast as possible.

POSTMASTER FOR JENSEN.

(Special to The Herald.) Washington, Feb. 15.—Charles K. Heller was recommended by Congressman Sears, today, for postmaster at Jensen, St. Lucie county, a presidential office.

LESS APPREHENSION IS FELT ABOUT CUBA

Washington, Feb. 15.—The failure to receive reports from Cuba, today, showing any marked growth of the liberal rebellion, caused administration officials to regard the situation with less apprehension.

It became evident today, that the United States will not make a move in Cuban affairs, until they are more sharply defined.

LOOK TO CANADA FOR WHEAT

London, Feb. 15.—Two large English and Scottish co-operative trading societies have combined and bought in Saskatchewan, Canada, more than 10,000 acres of land, which is already in cultivation. The products of this estate will supply with wheat the co-operative flour mills of Manchester, Glasgow, Newcastle, Bristol and London during the year.

The societies have also made important joint land purchases in India and Ceylon.

WANTED

Immediately, experienced, men's clothing. Burines's Sons.

TODAY'S EVENTS.

Open displacement boats, ten miles, start, 2 p. m.
Express cruisers, 15 miles, start 2:45 p. m.
Hydroplanes, speed trials, start 3:30 p. m.
Aquaplanes, second heat, start 3:45 p. m.
Trial for altitude record airplane, start 1:30.
Ten mile race between airplane and flying boat, start 2:30 p. m.
Music by Royal Scotch Highlanders band.

"Success" is the one word that most fittingly applies to the annual motor boat regatta, which began yesterday its three day program on Biscayne Bay motor boat course. It was the word on every lip during and after the events, as the many thousands who gathered at Alton Beach to witness the best program ever arranged for the entertainment of a sport-loving people in any city or town in any land of the wide world, turned to one another to voice their opinions of the various spectacular and sensational occurrences happening before their eyes.

From the very outset it was seen that barring some great upheaval of nature, the regatta would be worthy of that word "success," for the god having authority over the weather smiled on Miami and the glad sunshine beamed upon the people and gave promise of a beautiful day—a promise that was well fulfilled—and no more ideal weather could have been had than that which the weather man ordered for the great annual event of the southeast Atlantic seaboard.

Then again, from long before one o'clock until well after the races began, the people kept arriving and taking their places in grandstand or automobile parking places, and upward of two hundred yachts lined the western side of the course—Thousands came. Some walked, some rode bicycles, others rode motorcycles, and every kind and style of automobile, from the lowly Flivver to the lordly limousine or touring car, was observed. Carriages and wagons, and antiquated vehicles of all varieties, including the counterpart of the deacon's one horse shay, all emptied their human contents into the grounds surrounding the grandstand, and the delighted human beings surged forward to occupy seats in the stand. Fifteen to sixteen thousand spectators were assembled by three o'clock, an hour after the races began.

In the center of the grand stand that band of excellent musicians known to the world as the Royal Scotch Highlanders, conducted by Roy D. Smith, gave a delightful program which added largely to the right of the regatta to have the word "success" applied to it, and pleased the fashionable throng in the box seats and the gallery behind them.

Success In Every Detail.
The fact that every boat in the races ran faster than last year's records, and that in each event a new mark was set up for the emulation of others in the years to come, had much to do with the word which so fittingly applies to this, the third annual motor boat regatta.

Perhaps, more than any other, the race between the military tractor

driven by Phil Rader and the flying boat driven by Harold Kantner proved to be the most thrilling, especially as at the same time the express cruisers were dashing around over the course. At one time the five machines, airplanes and cruisers, with their powerful motors, droning like hives of bees at close range, passed the grandstand to the accompaniment of shouts from the spectators.

As the flying boat swept around the course in its ten mile race against the military tractor, a motion picture operator with his machine in the flying boat, pictured the long line of yachts and their thousands of gaily clad people, the automobiles parked along the bulkhead, the throng in the grandstand, and the speeding boats beneath him.

Promptly at 1:30 p. m. Roger Janus, one of the aviators of the Curtiss school here, accompanied by Miss Elsie Alexander of Asheville, N. C., ascended in a Curtiss military tractor, in an effort to establish a new altitude record for a machine of this type bearing pilot and passenger. He arose to a height of 8,500 feet, falling somewhat short of the record.

Open Displacement Class.
Meanwhile the open displacement boats were maneuvering on the course, their pilots getting ready for the fifteen mile dash around the course, which was the first race scheduled for the day. The spectators divided their attention between the tiny speck against the clouds in the west, and the boats preparing to take part in the race.

Seven boats were entered, of which three started. Mar-y-cel, owned by Charles Deering, Otagadai, owned by J. Fred Betz III, and J. H. Snowden's Jan. II, numbered respectively 1, 2 and 3, started promptly at the signal, and no more even start was ever witnessed in an event of this nature, for all three passed the grand stand abreast, with scarcely a foot between them.

Away they dashed, with the spray flying in clouds behind them and the crowd cheering "They're off! They're off! They're off!"

It took the initiated only a few moments to select the winner, barring accident, for the Mar-y-cel pulled gradually ahead of the others and finished an easy winner, setting up a new mark for the course in 23:52 1/2 with Otagadai an even minute behind. Mar-y-cel's rate of speed per hour was 37.7 miles, and that made last year by B. J. Southall's Albany was 30.6, which established a record over the preceding year.

Mar-y-cel is powered with a six cylinder Duesenberg motor, Otagadai with a six cylinder Sterling, and Jan. II with a six cylinder Speedway.

Other boats entered, which failed to run yesterday but may be seen today, were: Stroller, owned by W. H. Powers, with a power plant consisting of a six cylinder Van Blerck motor; Busidora, owner Jos. G. Wilson, powered with a four cylinder Van Blerck; Miss Miami, owned by Glenn H. Curtiss, equipped with a twelve cylinder Curtiss airplane motor; Mr. Curtiss' Baby Glenn, powered with an eight cylinder Curtiss airplane motor.

The Express Cruisers.
The time made by Raven III, express cruiser, establishes a new record for the Biscayne Bay course, lowering the mark made last year by Commodore Kotcher's Betty M. Raven III covered the ten mile course at the rate

FOR SPEED IN
MIAMI'S REGATTA

(Continued from Page One)

of 24.7 miles an hour, while Betty M's record was 24.38 miles an hour.

The three entries in the express cruiser class; Raven III, Carl G. Fisher's Shadow III, and Commodore Huston Wyeth's Boomerang, winner of the long distance race from Miami to Key West last year and runner up in the regatta events, got away with Boomerang two lengths in the lead, and Shadow III half a length behind Raven III. They finished the first lap with Boomerang slightly in the lead and only one second between Shadow III and Raven III.

At the north turn, just after completing the first lap, Boomerang had engine trouble which eliminated her from the race, although she gamely stayed to the finish.

In the judge's stand the race between Raven III and Shadow III was watched with interest, every man among the judges and other officials being motor boat enthusiasts. Remarks were made frequently showing that the motor boat experts knew they were watching a real race.

The finish was the closest and most exciting ever witnessed in this vicinity, and probably as close as was ever seen on any course, for as they dashed down the stretch it was a question as to which of the leaders would be the winner, and Raven III passed the judge's stand only two seconds ahead of Shadow III.

Flying Boat and Tractor.

Just before the express cruiser race began, the flying boat, with Harold Kantner at the wheel, and a military tractor with Phil Rader as its pilot, started a ten mile race around the course, both flying low, the flying boat at times almost touching the water, presumably with the intention of permitting the motion picture machine operator to obtain good views of the crowds and boats. The tractor won by two lengths, but the time was not observed, as the number of timers was limited and they were busy with the express cruiser race.

Aquaplane Exhibition.

Wallace Culbertson, Alex Culbertson and Willis Cooling, expert swimmers, gave an interesting exhibition of aquaplaning, their boards being secured to Shadow III, which sped down the course close to the grand-

SUBURBAN HOME BARGAIN

Owner needs cash in business. Will sacrifice on new concrete house, 7 room, big porch. Location best, in view of bay with access to same. Lot fronts over 150 feet on private road, all conveniences. No agents, address owner, SUBURBAN HOME, care Herald.

BREAK A CHILD'S
COLD BY GIVING
SYRUP OF FIGSCleanses the Little Liver and
Bowels and They Get
Well Quick.

When your child suffers from a cold don't wait; give the little stomach, liver and bowels a gentle, thorough cleansing at once. When cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

If your child coughs, snuffles and has caught cold or is feverish or has a sore throat give a good dose of "California Syrup of Figs" to evacuate the bowels no difference what other treatment is given.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company."

stand at fifteen miles an hour. Mr. Cooling's rope broke and Alex Culbertson lost his balance and fell, establishing Wallace Culbertson as winner of the first heat.

The statement was made during the races that Miami has just reason to be proud of the regatta and of the attendance, for there were more than two hundred yachts lying at anchor along the course, as many as Larchmont boats on special occasions, and thousands drove to the east side of the course in their automobiles.

Officials were: Commodore R. M. Thompson, John H. Hanan, Kirk Munroe, Charles W. Lee, E. C. McGraw, Ralph Worthington, George W. Moore and E. G. Sewell, judges; Rex. W. Wadman, starter; O. J. Mulford, Commodore Whitmore, Commodore Trowbridge, Commodore Nichols and John H. Hanan, timers. Commodore Huston Wyeth and Glenn H. Curtiss were judges in events in which they had no entries.

The regatta committee responsible for the success of the program is composed of Carl G. Fisher, chairman; E. B. Douglas, E. C. Romfh, W. N. Urney, Com. Charles W. Kotcher, Captain Johnstone Quinn, F. B. Shuts, Thomas J. Pancoast and S. Bobo Dean.

During the races the motion picture operators secured pictures of the officials, the grandstand with its crowds, and two or three motion picture heroines, and prominent persons as well as of the events, and these, it is reliably stated, will be shown in Miami within a few days.

LARGE ATTENDANCE
AT STRAND THEATRE

Denman Thompson's pretty comedy drama was the offering at the Strand Theatre last night by the Hazle Burgess Players, and they were greeted by their usual big audience who gave this story of New England their rapt attention. There is a strong vein of comedy in words and deeds running through the three acts and it is a real good sermon as well as a most agreeable evening's entertainment.

Hazle Burgess as "Nance Ransom" was excellent and Bert Leigh as the officious sheriff carried off the comedy honors. Stewart Robbins as the new minister gave a splendid performance and Jessie Livingston's portrayal of the gossiping old maid was most clever. As the ex-convict William Scheller was most striking, and Russell Sage as the hypocrite handled a thankless role exceedingly well.

Bess Bowers, Clyde Smith, J. L. Howard, John Wise and Bernie Worth contributed their share to an all around good performance.

MORE AVIATION STUDENTS

Another party of students is expected to arrive at the Curtiss Aviation school this week. By Saturday there will be thirty-five pupils receiving instructions at the school.

If your child is pale and sickly, picks at the nose, starts in the sleep and grinds the teeth while sleeping, it is a sure sign of worms. A remedy for these parasites will be found in WHITE'S CREAM VERMIFUGE. It not only clears out the worms, but it restores health and cheerfulness. Price 25c per bottle. Sold by Eagle Drug Co.

AMUSEMENTS

The magnitude of David W. Griffith's feat in staging "The Birth of a Nation," coming to the Paramount, February 18-19-20 with daily matinees, is almost appalling—at least to the devotees of the older forms of theatrical entertainment. Where now are the little groups of actors, the pinchbeck scenery and the petty properties of the so-called "legitimate" drama? By comparison with the new art, the "legitimate" measures to the mountain like a molehill. Instead of scenery for his background Griffith has used nature. For subjects he has covered 150 years of American history. Eighteen thousand people have done his bidding and in the hair-raising rides of the Ku Klux Klan three thousand riders and horses sweep over the dusty roads.

No wonder that this magnificent historical spectacle is the talk of the country. It has established an entirely new art in the realm of the theatre—the art of pantomimic to the action. It has also created a tremendous sensation because of its vaster and more forceful treatment of the theme of Thomas Dixon's "The Clansman," which both as book and play created the greatest furore of the last decade.

The great deeds of the civil war and the horrors of reconstruction are made to live again and the nation re-born is apotheosized. Mr. Griffith, pioneer among directors, managed this stupendous achievement without the aid of dialogue or speech, for motion pictures with music and ef-

fects tell vividly this thrilling tale of fifty years ago.

Seats now on sale at the box office.

At The Paramount Today.
A meteoric rise from a newspaper to a society debutante and newspaper reporter, is depicted by clever Marie Doro in the Jesse L. Lasky production "Lost and Won" which will be seen at the Paramount theatre today. This unconventional story was written especially for the charming Lasky star by the two noted dramatists, Channing Pollock and Rennold Wolf, and was prepared for the screen by Margaret Turnbull.

The story has to do with a bet which some wealthy men make, that a society girl can not be made out of a newspaper girl. The cast supporting Miss Doro is composed of such distinguished artists as Elliott Dexter, C. H. Geldert, Sydney Dean, Maym Kelso, Carl Stockdale, Robert Gray and others.

At The Fotosho.
Ella Hall will again appear in Bluebird photoplays at the Fotosho theatre today when she will impersonate the leading role in "Her Soul's Inspiration." The part Miss Hall will play is one for which she is almost ideally adapted—the role of a joyously happy little girl, who was "born with music in her feet." Her hoydenish disposition endured even through troubles enough to break the heart of most little girls—but this particular little girl had an inspired soul and that helped her over the rough spots.

Spain has 796 producing coal mines employing 29,857 persons and in 1916 produced 4,135,919 tons of coal.

NEGRO SCHOOLS PLAY
A BASKETBALL GAME

The first game of basketball between the colored schools of this section was played Wednesday evening in the Odd Fellow's hall, corner First street and avenue G. The St. Alban's Industrial school quintet of Cocanut Grove met a decided defeat by the Washington Graded and High school quintet of this city.

Many enthusiastic fans from both Cocanut Grove and the city were patiently waiting to see the clash of the contesting teams when the game was called at eight-thirty.

The game was featured by many brilliant plays. Ford, Stewart and C. Bell were the stars for the Washington Graded and High school, and Thomas was the star for St. Alban's Industrial school. Ford and Stewart are wonders when it comes to range finding on the basket and team work. Both teams were confident of victory when they faced each other in the lineup, but at the end of the last half the scores were sung to the tune of twenty-three to four. The lineup was as follows:

Washington Graded and High School (Lions).
Steward, rf., 3; C. Bell, lf., 6; Collins, rg., 2; Ford, c., 6; Hall lg., 0. Total 23.

St. Alban's Industrial School (Tigers).
Thomas rf., 4; Leuwang lf., 0; Williams, rg., 0; Albany, c., 0; Moncur, lg., 0. Total 4.
Referee, P. Cassey.

FOR THE PURPOSE OF PROVIDING AMPLE FUNDS FOR THE ERECTION IN MIAMI OF THE MUCH NEEDED APARTMENT HOUSES, HOTELS, ETC., AS WELL AS RESIDENCES, FACTORIES, AND OTHER BUSINESS BUILDINGS

The Fidelity Mortgage & Guarantee Co.

Has been organized with a capital stock of \$250,000, more than half this amount having already been subscribed.

Mortgages taken on loans for such purposes will be placed with the Fidelity Bank & Trust Company as trustees for the Fidelity Mortgage Guarantee Company. These mortgages will be held as securities and debenture bonds issued against them.

This new company will also guarantee mortgages and titles conducting its entire operations along the same lines and principles which have been used successfully by the Straus-Embrey Company of Chicago; the Mortgage Guarantee Company of St. Louis; the Bond Mortgage Company of New York; also the Lawyers' Mortgage Company of New York. The stock of the former is now worth \$1,500 for every \$100 certificate, and there is every indication that the stock of the Miami company will increase in value rapidly.

The Officers and Directors of This Company

Are men of affairs—successful in big enterprises. E. C. McGraw, president and majority stockholder of the McGraw Tire & Rubber Co., is president; L. T. Highleyman, president of the Fidelity Bank & Trust Company, is vice-president. There are six directors, including both Mr. McGraw and Mr. Highleyman, as well as John H. Hanan, head of the Hanan Shoe Company, of New York and Miami; Clarence M. Busch, a large holder of Miami property and a New York capitalist; J. P. Logan, of New York and Miami, the largest white goods merchant in America; Frederick Haberman, former vice-president National Enameling and Stamping Co., Miami and New York; and John C. Gramling, of Miami, state's attorney.

To Fill a Long Felt Need

This organization fills a long felt need in connection with the immense building operations now in progress and for the benefit of those now in prospect.

Money will be available for those who want to build homes, business houses, hotels, apartment houses, etc.

You Can Be a Stockholder

We have deemed it advisable to set aside an appropriation of \$15,000 worth of stock in this Company so that local investors of moderate means might be enabled to buy stock, in the event they desired to become stockholders. Such investors must subscribe for stock within the next few days, however, as most of the stock has been taken.

MIAMI GROWS AND CONTINUES TO GROW

Nothing can stop Miami from growing. The next few years will witness even a greater growth than heretofore. If YOU are interested in helping Miami grow and in placing your funds where they will be absolutely safe and will earn a good dividend, ask about this new company. We will be glad to give full particulars to anyone.

Regatta Social Features Grandstand Box Parties And Groups on the Yachts

While the days of the regatta are important as a sports event, and while for that reason they attract thousands of people from all over the country, the regatta days of Miami have become the leading social event of the southern season.

And yesterday society, in the gayest of silk sweaters and sport clothes, was out in full force, crowding the grandstand boxes scattered along the waterfront in automobiles and most especially lounging in wicker chairs on the decks of the flag-decorated yachts that were anchored on the west side of the course opposite the grandstand.

The boxes at the grandstand, which were in most cases taken for the three days, were filled with a hugely interested gathering. The members of the regatta committee and their guests made up a large number of these. They were as follows:

Mr. and Mrs. E. G. Sewell and guests, Mr. and Mrs. James A. Moore, Mr. Alfred C. Thompson and Mr. Raymond Thompson.

General and Mrs. Baldwin Day Spillman and guests, Senator and Mrs. Camden, Miss Margaret Spillman and the Misses Tevis and Annie Spillman, Miss Mildred Bishop and Captain Emory.

Mrs. Ida Fisher and guests, Mr. and Mrs. Lynch of Atlanta, Dr. and Mrs. Ozman of New York.

Dr. and Mrs. Harry Lawton and guests, Mr. and Mrs. B. W. Edwards, Mr. Clarence Busch.

Mr. and Mrs. T. J. Pancoast and Mr. and Mrs. John S. Collins, Captain and Mrs. J. H. Quinn, Mr. and Mrs. J. Arthur Pancoast and Captain Saterly of Tampa.

Mr. George B. Snowden, Mr. James J. Snowden, Mr. and Mrs. Henry McSweeney, Mr. Harry Mount and Mr. S. M. Timberlake.

Mr. Willard and Mr. and Mrs. Louis Sndigar, Miss Averil Fowler, Miss Fuch and Mr. Bowman.

Mr. and Mrs. J. M. Bercegeay and Mrs. Thompson, Mr. and Mrs. William S. Thompson and Miss Jane McKesson of Toledo.

Mr. and Mrs. C. D. Benson and Mr. and Mrs. G. H. Goodrich, Mr. and Mrs. N. L. Svenson, Mr. and Mrs. Thomas F. Sprigg.

Mr. and Mrs. J. H. Tatum and Mr. and Mrs. C. M. Rich of Keokuk, Mr. and Mrs. S. E. Hoopes of Minneapolis.

Mrs. William T. Kennedy and Mrs. Merritt Starr, Mrs. Fletcher Dohyus of Chicago, Miss Kathleen Kennedy, Miss Dorothy Davis of New York and Miss Caroline Davis of Findley, Ohio.

Mrs. William Burdine and Miss Alexander, Miss Marion Dunson, Miss Bess Burdine and the Messrs. Clement Chinn, William Burdine and Roger Jannus.

Other box holders who were not using their boxes for the first day were Carl G. Fisher, P. B. Shuts, S. B. Dean, E. B. Douglas, Commodore Kitcher and E. C. Romfh.

As for the yachts, their name was legion and the yacht parties on board were numerous.

Spalding Violined His Way Into the Hearts of Miami

Mr. Albert Spalding, violinist, assisted by Mme. Loretta Del Valle, prima donna of the Royal Opera House, Prague, appeared in concert at the Paramount theatre last night. An audience both appreciative and enthusiastic greeted the artists, who rendered a program of rare charm and beauty.

At the piano Andre Benoist gave masterly assistance as the accompanist of the evening.

Mr. Spalding played as the opening number "Devils Trill" sonata (Tartini), a composition of unusual character, and one not familiar to the majority of audiences. It gave opportunity for great originality of expression and was given a masterly rendition bringing forth continuous applause that refused to be stilled until the player returned and played an exquisite encore.

Mme. Del Valle sang her way into the favor of the audience with her first group of three songs. A dainty Brahms song, one of Debussy's "Mandoline" and "Voce di Primavera" by Johann Strauss were her selections. Her voice has richness, power and dramatic fervor combined with surpassing sweetness and flexibility. It would be difficult to say which of these numbers pleased the audience most for after each the applause was rapturous, and she returned to sing a catchy "Cookoo" song. Her English pronunciation proved to be unusually fine and her enunciation faultless.

Paganini's "Concerto in D," with its wonderful brilliancy and charm was Mr. Spalding's next offering. In a perfect abandon of musical expression the violinist met the requirements of the great master's composition. With magical dramatic fervor he played, from exquisitely dainty passages to those full of dignity and power. His playing was that of a wizard and he drew a responsive thrill from his hearers with each sweep of his bow. The climax of this

number was a series of brilliant passages played without the piano, the two instruments coming together again in perfect harmony in the last chords.

Mme. Del Valle's interpretation of the Bell song from "Lakme" (Delibes) was beautiful. Tonal beauty, and flexibility combined with the exact temperamental requirements made the number very satisfying.

The magical rhythmic accompaniment as played by the pianist added greatly to the song. Mme Del Valle was exquisitely gowned and is a very charming singer.

"The Years at the Spring" (Mrs. Beach) was sung as an encore to this number, and proved so acceptable that she was recalled and graciously sang again. Her voice beautiful in the beginning, seemed to improve with each song.

Mr. Spalding's final group of the evening included:

(a) Prize Song from "Meister-singer"—Wagner-Wilhelm.

(b) Hungarian Dance No. 1—Brahms—Joachim.

(c) Alabama (Plantation, Melody and Dance)—Albert Spalding.

(d) Polonaise in D—Wieniawsky. All were received with unstinted applause. There seems to be no technical difficulties he has not mastered. His breadth of tone, so full of melody and vibrant with feeling is typical of the real artist. His own composition, "Alabama," had a weird charm, that will remain long in the memory of those who heard it.

The applause after this number was most complimentary. The last number was sprightly and full of fire, a very suitable ending to a delightful program. Insistent applause recalled Mr. Spalding again and he graciously responded with still another selection.

Those present felt very grateful to the management who made it possible for them to hear the three artists presented.

WEEKLY WORK MEETING

Sir Douglas Haig chapter I. O. D.

B. E., held the weekly work meeting at the home of the regent, Mrs. William Clifford, Thursday afternoon. The members are very busy getting ready for the coming bazaar which will be held Thursday, March 8th.

Many beautiful pieces of work are being made and all sorts of fancy work. There will be homemade cake and candy for sale; also candied fruit, jellies, marmalades, and all such toothsome delicacies, so that the palate as well as the eye will be satisfied. Every week there are gentlemen guests, who are much interested in the work these women are doing, so much so that some of them have given very liberal and beautiful gifts for the bazaar. There will be a surprise table.

The guests of the afternoon were Mrs. W. A. Hill, Mrs. M. A. Hill, Mrs. Drysdale, and Mr. S. B. Fisher, of Kansas. Mr. Fisher is consulting engineer of the Missouri-Kansas and Texas railway, and an engineer of experience and prominence. The members in attendance were Mrs. Clifford, Mrs. Vivian, Mrs. A. C. Mowat, Mrs. Chas. Albury, Mrs. Brice, Mrs. Kitson, Mrs. Cooke, Mrs. Sturrock, Mrs. Van de Ford, Mrs. W. A. Hill, Mrs. M. A. Hill, Mrs. Geo. McGuire, Mrs. Bate, Mrs. Irwin, Mrs. Fraser Knight, Mrs. Drysdale, Mrs. Chas Curry and baby Silvia, and the Misses Kathleen Irwin, Catherine Gunn, Susie Millard, Naomi Curry, Gunn French; Archdeacon Irwin and Mr. S. B. Fisher.

Miss Catherine Gunn sang in her usual pleasing manner, "A Perfect Day" and "A Little Home in the West."

MRS. GIFFORD'S PROGRAM AT REGULAR MEETING OF THE HOUSEKEEPERS' CLUB

Mrs. John Gifford gave an exceptionally interesting program before the regular meeting of the Housekeepers' Club of Coconut Grove yesterday afternoon.

Her subject was the interesting effect of war on literature, with special reference to war poets and war poems.

"Any great experience," Mrs. Gifford began, "makes art impossible for the time being. But the best art comes when the experience has come and gone and been pondered. It is really emotion remembered in tranquillity."

The first effect of the war on English literature, Mrs. Gifford continued, was therefore to make the authors so sad and distraught as to see no silver lining in the war cloud. Their minds have been depressed and disturbed

INTEREST IN THE RACES

Something of the interest taken in Miami in the great speed boat races that are being held in the bay may be inferred from the attendance at the first day. It is estimated by careful observers that at least fifteen thousand persons witnessed the events of yesterday, and the prediction is that each of the last two days will see the crowds largely augmented.

These races are of the very first importance to Miami, making it the central point of interest of owners of speedy boats and all who enjoy such events in the winter time, and Miami has become the greatest center of this sport for the winter season, on the continent.

As a mere matter of advertisement of Miami these races are invaluable. The races are of such importance that every incident in connection with them will be told by scores of magazines and other publications, and every great daily in the country will carry the news of the results as they occur. Miami will be mentioned most favorably thousands of times within the next few days and weeks, as a boat racing center unapproachable in the winter time. This mention, this favorable comment, will be a form of advertising that money could not possibly purchase and will be worth more than any sum that could be raised for advertising the attractions of the city.

In a social way it also has its immense value. It gathers leaders of society from every important city in the country and they lend grace and interest to the interesting occasion.

It is entirely proper for The Herald to say that this city owes all this to Carl Fisher, now a resident of Miami, and who has, for a number of years, been indefatigable in bringing Miami to the notice of the public and in developing Miami's resources as a winter resort. His work in the development of the speed boat and in promoting the best kind of racing make him of national reputation, and his work for Miami will always be held in grateful recollection by every well wisher of the city.

Miami can show some of its appreciation by turning out in force to these races and in bearing a fair share of the expenses.

A BLOCKADED COUNTRY

This question is pertinent and may be addressed to those who are persistently trying to prevent the president and congress from asserting the national right to free access to the seas: Would the blockading of the coast of the United States, under the old form of blockade, be such an act as would warrant this country in declaring war against the government that instituted the blockade?

Before the breaking out of the European war, a blockade to be legal must have been effectual. That is, the blockading country must, by visible force, make the coming into or the going out from a port by vessels, practically impossible. It could only be done by a fleet more powerful than that which could be brought against it, and when the blockade was once broken, blockaded ports were thrown open to the world. A blockade was the virtual imprisonment of the country against which it was directed, if it were carried on under the rules of international law.

The advent of the submarine has, undoubtedly, changed the law of blockade. It is not now necessary, it would appear, that the blockading force shall be at all times visible or even in actual presence, as was the old rule. A virtual blockade can now be instituted and, apparently, maintained at a very great distance from the country blockaded.

Now, it is quite clear that even the most reluctant pacifist would immediately say that an old time blockade should be repelled and destroyed by the force of the nation attempted to blockaded.

But that is exactly what is occurring, now. This country, to all intents and purposes, is being blockaded, this very day, by a power whose force is three thousand miles from our shores. Germany has established a prohibited zone where our vessels are not permitted to sail. The result is that the shipping of the United States, that part not engaged in coastwise trade, is tied up at the wharves of the country. They do not sail because they fear destruction and the blockade is as effectual as any that was ever established under the old rule along the southern coast during the civil war, which blockaded the nations of the world respected, because they were forced to do so.

If the old style blockade would be infringement of our right, supposing one were instituted, just why is not the present blockade of the country also an infringement of our national rights, an imprisonment of the commerce of the country, a denial of our right to sail unmolested the oceans of the world, a flaunting of our sovereignty and an insult to our flag?

If the one would have been a cause for war, there is every reason to suppose that present conditions also warrant the strongest protest this country can make against conditions that are intolerable.

It is to be hoped that the compliments the weatherman received for his work in giving Miami a perfect day, yesterday, will not make him careless. There are two more days of the regatta.

OF DOUBTFUL PROPRIETY

The Herald very much doubts the propriety of an institution owned by all the people being used at any time by those who make it their work to sow dissension in the community. This paper is strenuous for free speech, even if the speech has a sting in it, even if it tends to create friction, for the suppression of free speech is a greater danger to the country than is the occasional strife stirred up by ignorant and unscrupulous speakers.

But in the case of the school auditorium, for instance, a building which is owned by all the people and in which all the people have an interest, which was paid for by the assessment of equal contributions on all the people irrespective of creed or opinion, The Herald, as it said, doubts the propriety of those in charge permitting the auditorium to be used by those whose sole purpose is to stir up needless and vicious discord.

These remarks are called out by the appearance at the auditorium of a man who advertised a subject which, in itself, was suspicious and sufficient to put the authorities on notice that there was to be a one sided discussion that could have but one result, the injuring of the feelings of a very large and very respectable portion of this community.

In this particular instance, it is probable that no very great harm was done because of the very extravagance of the speaker who exposed his ignorance and his hatred so deplorably that even the most prejudiced could understand that he was without knowledge of his subject. But it is understood that other speakers are to inflict this city with the same sort of disquieting talk before long and the question is, is the public to furnish accommodations for them to sow dissension among us?

As The Herald views it, placing public buildings at the service of such men is a violation of the purposes for which they are constructed and is not in good faith with those who have helped pay for them. It sincerely hopes that when speakers of like ilk come to Miami the public will not be called upon to furnish accommodations for them. Private halls are plenty, and the streets are reasonably free.

CARRANZA'S SINGULAR NOTE

Having been recognized by the United States as the de facto government in Mexico, it is to be supposed that it comes within the bare diplomatic rules that Carranza should be permitted to propose to the United States and other neutral nations some form of peaceable intervention with a view of bringing peace to Europe, although under all the circumstances which surround the history of the present government of Mexico and its very slender hold on power, it seems quite a presumptuous suggestion to come from such a source.

It is all very characteristic of Carranza, who seems always to have valued himself very highly and to have assumed that Mexico has some weight and authority in the council of nations, which of course, is exactly contrary to the facts.

Even if Carranza were in a position to command the respect and confidence of other nations, there is a very grave suspicion that he is not acting in an entirely disinterested manner. The suspicion is that he has been urged to take the course he proposed by Germany, and that suspicion is borne out by his suggestion that neutral nations combine to prevent the shipping of supplies and food to any of the belligerents.

This, of course, means stopping supplies going to the allies, for the central powers are not in a position to receive supplies from any source except from those countries immediately on their borders.

Carranza's suggestion does not change the fact that any alteration in the mode of our dealing with the nations at war, after war has begun, would be an act of unneutrality toward the ones injuriously affected, and would lay us liable to all the penalties for violating our neutrality.

Aside from the suggestion coming from so preposterous a source, there is in it nothing that will receive other than casual consideration and courteous reply from the countries to which Carranza directed his singular note.

CHANCE FOR UNIQUE ANNIVERSARY

For those who like to observe anniversaries it may be interesting to learn that this year presents the opportunity for observing the one hundred thousandth Sunday of the Christian era.

July eighth, of this year, will be the fateful day, or at least it will approximately on that day that will occur the one hundred thousandth Christian festival of Sunday.

There is some confusion, because it is still undetermined whether the year 4 A. D. was a leap year. There were some irregularities in the calculations for leap year in the first half century after the adoption of the calendar of Julius Caesar. The prevailing view is that the year eight was the first leap year after the beginning of this era. On this hypothesis January 1, A. D. 1, was a Sunday and July 8, 1917 will be the first day of the one hundred thousandth week of the era.

So there is the chance for a special anniversary.

The news comes that the Union Velocipedique de France has disqualified for life the rider Marcel Dupuy on the ground "that a Frenchman capable of winning such a contest as the six days' cycle race in New York should be serving his country at the present time." It would be interesting to know whether the popularity of Charlie Chaplin, who explained that he was prevented by his "contracts" from taking part in the war, has suffered any corresponding diminution in this country.—London Observer.

Suspense is over as to one promised war. Diplomatic relations have once more been resumed between the national league clubs and the Fraternity of Baseball Players. In view of what may happen across the water, our escape from a domestic conflict brings a sense of relief.

Germany is certainly a trouble maker. Aside from the European conflict it is becoming quite apparent that troubles in Mexico, Cuba, Ireland and the United States are directly traceable to her dislike for peace, anywhere.

Increasing the circulating medium will be all right, if precautions are taken to have it circulate in exactly the right place.

It is said that Ambassador Fletcher is going to Mexico in an endeavor to "placate Carranza." The only way to placate the first chief is to give him his way in everything and then hand him a few compliments.

OBSERVATIONS

Now they want a "Mule Day" in Texas, and Texas goes democratic by several hundred thousand.

"I hereby warn the government" said the Oldest Inhabitant, "that the tax on my excess profits will not buy a submarine—and that's certain."

His Avoirdupois

"How much do you weigh?" "One hundred and forty-two pounds bone dry," promptly replied Mr. Gap Johnson of Rumpus Ridge, Ark.—Kansas City Star.

When a magazine writer talks about a woman being "speechless with rage," there ain't no such blooming flower.

Some men get rich borrowing money, but none ever get anywhere by borrowing trouble.

Nut Ship Will Be Forgiven

By offering his plant to the government free of charge, in case there is a war with Germany, Henry Ford has made ample amends for all his blunders as a pacifist.—Birmingham Age-Herald.

Speaking of Danger Zones

These must be nervous days for Nick Longworth. Any son-in-law of the Colonel who doesn't volunteer had better avoid the vicinity of Oyster Bay.—Charleston News and Courier.

IDEAL WEATHER AT MOORE HAVEN FOR PLANTING

Everyone Busy and Taking Advantage of the Opportunity Just Now

Everyone is busy at Moore Haven, taking full advantage of the fine weather, in order to get every possible acre cleared and planted to a spring crop. Messrs. Hovey and Southard are having a large acreage planted to potatoes, and are also having about one hundred acres dug this week, for which they have been offered a very fancy price. Mr. Altland of Oklahoma is having his thousand acre section prepared for the planting of broom corn, and every farmer in this wonderfully aggressive community is busy from sunrise to sunset, taking advantage of the wonderful possibilities for raising big paying crops. There has not been such an opportunity for many years to reap the big profits that are available this year, and the Moore Haven farmers are alive to the situation, and they know that they have in the Moore Haven soil something that will give them a wonderful advantage. It is interesting to note the fact that the principal crops that are being raised there are big money makers—broom corn, onions, potatoes, peanuts, feed corn, sugar cane, and that the maximum crops with the minimum expense is the rule. It is no wonder Moore Haven is prosperous, and that the people there are busy. They are laying a foundation worth while, on which is being built a definite agricultural structure—one that bids fair to be the wonder of the entire south.

MISS ALEXANDER DESCRIBES YESTERDAY'S ALTITUDE FLIGHT

Miss Elsie Alexander, the young lady who made the ascent of 8,500 feet yesterday afternoon with Roger Jannus in the Curtiss Military tractor in the first trial for altitude record, was one of the centers of interest at the grandstand yesterday afternoon where she was a guest of Mrs. William Jannus, whom she is visiting. After alighting from the plane, Miss Alexander made her way to the grandstand where she was met by Jannus and the young people crowded around her, and appeared the box quiet and cool with even in place under her trim hat, and cheeks pink with exhilaration.

HIS LOTS ARE MIGHTY FINE INVESTMENT

So Declares P. Ullendorff About His Purchase Made In Riverside Heights

One of the most extensive owners of Miami business and residence property is P. Ullendorff, who is also one of the leading business men of the city.

Mr. Ullendorff came to Miami when it was yet a small city and by placing every cent he made out of his business, in property, soon became very wealthy. He exhibited the same shrewdness in his investments that he did in his business and everything he bought has made him a handsome profit.

Three years ago Mr. Ullendorff bought three blocks in Riverside Heights, facing north on Lawrence Drive, between Seventeenth street and Twentieth street and recently he built a handsome home for himself on this property.

When asked about his property in the Heights recently he said:

"That was one of the best investments I ever made. There is a fortune in that bunch of lots alone. I paid \$24,000 for sixty lots, and they are easily worth \$75,000 today, and I expect they will be worth a lot more before I sell them."

"No, they are not for sale now. I built a nice home there for myself and when I sell those lots they will have to be built on and good homes will have to go on them."

"I consider the development of Riverside Heights one of the best in the city and the Tatum are entitled to a lot of credit for their enterprise and their faith in Miami. I have always thought Riverside Heights was the best section to live in and my judgment is being proved by the fact that many of the best people are living there now and more are building for themselves."

"I figure that in two years the Heights will be built up almost solid as far south as Seventeenth street and I will be willing to sell my lots then, as the demand comes for them, but they are too good to let go now, even at prices asked for central stuff."

BUENA VISTA TRASH FIRE

A trash fire at Buena Vista called the fire department to that section early yesterday afternoon. The department responded promptly, but the blaze was under control when the firemen reached the scene. No damage was reported.

An inventor has patented a pie pan in two sections that can be taken apart without danger of breaking its contents.

ened? Mercy no. Nothing even like it.

"It was just like sitting in an automobile," Miss Alexander asserted. "I thought I would be frightened when the machine left the ground but I wasn't at all—not the least bit. It was perfectly great and I am crazy to go again."

Mr. Jannus and Miss Alexander, whom the aviator said was the best passenger he ever had, reached 8,500 feet, but could not go higher because the air was so bad. They passed through four different types of air current. They were up for twenty-seven minutes and during the time were not only climbing but in descending. Mr. Jannus treated his passenger to all sorts of special sensations such as tail slides and side slips in which they shot down tailways or sideways for a thousand feet.

Good Sense vs. Good Cents

The essential quality of good sense is required of every person who aspires to accumulate good cents.

Your good sense must tell you that the simplest way for you to adjust the problem of financial conditions is through a checking account in this Bank.

Any one of our thousands of satisfied depositors will convince you—Put the question.

LEGISLATORS VISIT GLADES NEXT WEEK

Estimated That At Least One
Hundred Will Be In
the Party

RECEPTION PROGRAM

Three Days and Two Nights On
Boats In Canals and Lake
Okeechobee

(Special to The Herald.)
Fort Lauderdale, Feb. 15. — The Everglades Drainage League gives out the following information about the coming visit by Florida legislators to the Everglades:

A flotilla of several large barges is being organized by the local committees to carry the members of the legislature and other guests through the Everglades next week. It is planned to have the party spend three days and two nights on board the boats, in the drainage canals and at Lake Okeechobee.

It is expected that the legislative party that is to explore the 'Glades will number at least a hundred persons. Fully half the members of the legislature have accepted, and several of them will bring their wives along. Representatives of all the leading daily newspapers of the state are to make the trip, and it is still hoped by the committee that Governor Catts will be a member of the party.

Unusual interest was added to the arrangements this week, when it was announced that Mr. and Mrs. William Jennings Bryan would give a reception to the legislators at their home in Coconut Grove, as a part of the entertainment program. It is also announced that the former secretary of state, who is an Everglades land owner and enthusiast, will also be among the speakers at the banquet in Miami next Thursday night, and may accompany the voyagers on their trip through the 'Glades.

The members of the Everglades party, who are to be the guests of the people of Dade, Broward and Beach counties from the time they leave home until they return, will arrive in Fort Lauderdale in special Pullman sleepers attached to the trains scheduled to reach here at 1 o'clock and 8 o'clock Monday morning. An auto party of representative Tampa citizens is also expected, and there will be a number of guests from the counties to the south and west.

Because of the rocks in the North New River canal, which make it impossible for several miles except to boats of very shallow draft it has been found impracticable to utilize any of the handsome, commodious passenger boats that were offered for the use of the legislative party, and the visitors will be obliged to make the journey to the lake on board flat-bottomed barges being drafted and equipped as comfortably as possible for the occasion.

There will be several of these barges, and the visitors will sleep aboard for two nights. Cots and mattresses will be spread on deck, and guests have been asked to bring their own blankets. A barge fitted up as a kitchen and commissary department will accompany the flotilla, and meals will be served aboard the barges from this cook boat. Captain Harry Clarke, general manager of the Forbes Pioneer Boat Line, will be admiral of the fleet, and Mayor

CARD OF THANKS

To the friends and acquaintances who were so kind during our recent affliction and bereavement, we wish to thank each and every one for your kind acts and loving words of sympathy, and for the beautiful flowers so cheerfully donated. May God bless you all and keep such a trial as we have had from you.

Capt. G. E. Kitchell.
Edward, Beulah and Laura Strunk.

AT YOUR GROCER'S

FOR LEASE—BY YEAR NORTH BAY-SHORE INN

Situated near Tarpon Club.

Desirably located. Beautiful surroundings. Everything new. Plumbing, electric wiring, septic tank, water supply all under city inspection and approval. Apply at the Inn, or at No. 1 Farr Maisone, 219 12th St.

James R. Reid

Will J. Reed, of Fort Lauderdale, will be commissary general.

The party will leave the dock at Fort Lauderdale about 9 o'clock Monday morning, for Davie, where lunch will be served and an inspection made of the groves and truck gardens, and there will be some informal speaking.

Leaving Davie in the afternoon, the fleet will start up the North canal for the lake, arriving some time the following forenoon at Okeelanta, where the citizens are arranging to serve a characteristic Everglades dinner to include Lake Okeechobee catfish, fried rabbit and racoon and roast duck and mudhen. An inspection will be made of the Okeelanta district and visits will be made to the islands along the south shore of the lake on Tuesday afternoon. The barges will anchor for the night in the lake or one of the canal entrances, and after an early breakfast Wednesday morning, the return trip will be made through the Palm Beach canal.

Disembarking at Lake Worth some time during the afternoon or evening, the party will be taken to Miami, where the night will be spent in Pullman cars.

The Thursday program includes a motor trip, with visits to the Tamiami Trail, the Bright Bros. farm on the Miami canal, a bathing party, aeroplane exhibition and shore dinner at Miami Beach, and the Bryan reception in the afternoon.

State Senator W. L. Hughlett, of Cocoa, will be toastmaster at the banquet to be served Thursday evening (Washington's birthday) at the Hotel Urney, Miami. Owing to the crowded condition of the Miami hotels, the Urney dining room is the largest place available for this affair, and as a result the number that can be served at the banquet has necessarily been limited to 225. As nearly 100 guests are expected, this leaves only 125 banquet tickets for distribution among the citizens of the three counties, and these tickets are being sold by subscription, the rule of "first come, first served" having been adopted.

In addition to Governor Catts and Mr. Bryan, both of whom are expected to be present, the speaking program at the banquet will include a number of prominent members of the legislature, as well as leading citizens of south Florida.

BIG FELLOWS CLASH WRESTLING TONIGHT AT ATHLETIC CLUB

From the interest being taken by tourist visitors in Miami, W. H. Newell, wrestling promoter who has staged a match between Al Christensen, heavyweight champion of the south, and Ernest Fenby, heavyweight champion of Michigan, has formed the opinion that twelve to fifteen hundred persons will witness the clash between the big boys at the Seminole Athletic Association headquarters on Eleventh street tonight.

An amphitheatre has been erected for the occasion which will provide seats for the number expected, and one section has been reserved for the feminine fans, of whom there are a goodly number in Miami.

Manager Newell declares his protégé, Christensen, will prove more than a match for Fenby, despite the latter's superior weight. He insists that Al is much the quicker of the two, and has fully as much, if not more, ring experience and is Fenby's superior in skill and generalship.

But on the other hand Billy St. Mary, Saginaw promoter, who imported Fenby for this match, believes the Shepard Giant will be the undoing of Christensen, and so have the honor of meeting Charlie Cutler during the early days of March, when that much proclaimed and loudly heralded wrestler comes to Miami looking for fresh laurels.

It is quite likely, Newell said last night, that as a result of the interest being shown here by local and visiting fans, Ed (Strangler) Lewis will come down to Miami about the time Cutler arrives, and some big show matches may be arranged.

Both of the big fellows meeting tonight have gone up against some good men—some of the best, including Gotch, Yousef, Demitral, Dr. Roller, and others of the top notchers—and are expected to give the spectators a good exhibition for their money.

Several preliminaries have been arranged. Eugene McClure, manager of the Royal Palm casino, and himself a wrestler of no mean ability, will referee tonight's match.

CONDITION OF MRS. LEE

The many friends of Mr. and Mrs. William Lee, who resides at 203 Houser street, will be glad to learn of a message just received from Miss Jane Buckley, trained nurse, who went with Mrs. Lee several days ago to the Hayward sanitarium at Keesee, Ga., for the purpose of an operation on Mrs. Lee for appendicitis and other troubles. The message states that the operation was successful and the patient is doing well. The husband and friends have been very anxiously waiting, while they had every confidence that Mrs. Lee was in good hands.

When gold nuggets are heated over a Bunsen burner blisters appear on their surface and explode, which is taken to indicate that nuggets contain some gas.

\$250

Will buy a five-passenger automobile in first-class condition; top and upholstery like new; tires and tubes all new. 333 Twelfth street.

ANNOUNCEMENT

Dr. John L. North wishes to announce to his friends the removal of his office to the third floor of the new Ralston building, on avenue C.

ASK FOR A QUARTER OUNCE-OF FREEZONE

Any corn will dry up and lift out
says a Cincinnati
authority.

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this authority.

He says that a few drops of a drug called freezone applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts out without pain.

This drug is sticky but dries at once and is said to simply shrivel up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

OBITUARY

Capt. Francis Hendry.

Fort Myers, Feb. 15.—Capt. Francis A. Hendry, pioneer in South Florida, former member of both branches of the state legislature and cattle owner, is dead. After months of ill health, the end came to him peacefully at 9:30 o'clock Monday night at the home of his daughter, Mrs. John F. Menge, 153 Bowler street.

In the death of Capt. Hendry South Florida has lost one of its foremost characters and enterprising citizens and his death is not only keenly felt in Fort Myers and Lee county, where he has resided for so many years, but throughout the entire state that he loved so well.

P. R. Brady.

Fernandina, Feb. 15.—P. R. Brady, the oldest active merchant in Fernandina, died from a stroke of paralysis, the first stroke having occurred two weeks ago. His death will be a severe shock to his numerous friends here and throughout the state as Mr. Brady has done business for forty years in Florida.

The funeral was held from St. Michaels Catholic church with a low re-

CANTALOUPE KING OF GEORGIA BUYS DADE COUNTY LAND

Key West, Feb. 15.—Mr. and Mrs. J. A. Dasher of Valdosta, Georgia, were among the arrivals in this city Tuesday night. Journeying from their Georgia home to Jacksonville they have travelled slowly down the east coast of Florida enjoying the scenery and the warm Florida sunshine. At Miami they spent several days and Mr. Dasher invested while there in a tract of Dade county realty.

Mr. Dasher is a well known South Georgia capitalist and is generally called throughout Georgia and Florida the cantaloupe king because of his extensive speculations in this fruit. His hobby is real estate and his investments in this line extend from Mexico to Maine. While it is given out that this is simply the winding up of his wedding trip that began twenty-seven years ago those who know say that the days spent in Cuba will be more of a business nature. It is rumored that he is interested in large sugar interests on the island, that his present trip is being made with the view of increasing his holdings, which since the beginning of the present European war have steadily risen in value and have been paying a handsome dividend.

MIGHT BRING THEM BACK.

Owing to the crowded condition of the public busses and ferries returning from the beach yesterday afternoon and last night and the fact that hundreds of private automobiles returned with much less than their comfortable capacity it has been suggested that the owners of private conveniences make it a point to bring back some of the visitors with them when they are returning in the afternoon.

quien mass. The order of Elks and Knights of Columbus and the merchants of Fernandina attended in a body.

Gas in the stomach or bowels is a disagreeable symptom of a torpid liver. To get rid of it quickly take HERBINE. It is a marvelous liver stimulant and bowel purifier. Price 50c. Sold by Eagle Drug Co.

REAL BREAD LINES WHEN TIME TO EAT IN RESTAURANTS

"Peace has its victories no less than war," and Miami demonstrates that prosperity may bring bread lines and tented cities as surely as an invading army or a devastating flood or fire.

Miami is undoubtedly better supplied by high class restaurants and lunch rooms than any city of its size anywhere, yet from five to nearly seven o'clock each evening the sidewalks along Twelfth street are congested by long lines of men, women and children awaiting their turn at one of the many restaurants between avenue E and the Boulevard. It is a sure enough bread-line, made up principally of people who have spent the day in the open air, fishing, golfing, motoring or some of the numerous pastimes that this glorious weather affords, and no war-famished peasant of Belgium has a keener appetite than the good-natured crowd cheerfully awaiting their turn at one of the tables.

And then at night when the incoming trains from the north and the south unload their scores of passengers resort must be had to the comfortable tents that are provided by the Chamber of Commerce for the temporary housing of visitors. Now cots are being secured to be put in the various halls and churches so that there will be ample accommodation for all who come.

It is possible that there are times when just a little patience may have to be exercised but every visitor to the city may rest assured that a competent corps of Chamber of Commerce officials are always on the job and that the comfort of every visitor is desired.

NAVAL EXAMINATION BOARD.

Adjutant General Christian has forwarded to the secretary of the navy the names of Dr. W. S. Gramling, Dr. E. K. Jaudon and Dr. Stewart L. Jeffries, with the recommendation that they be appointed a naval examining board for the purpose of making the medical examination of the commissioned officers of the proposed Miami naval division.

AS A HOME SITE

Many choice locations in Riverside Heights have been purchased since the inauguration of our HALF MILLION DOLLAR SALE of residence lots, and on these the purchasers will erect pretty homes in the near future. Other choice locations have been selected purely for investment purposes.

There are a number of the low priced lots which have choice fruit trees yielding sufficient fruit for family consumption. These are in the new plot just opened up and make excellent home sites for those who will build later on.

Streets are rapidly being graded, etc., in this plot, and the low price of lots \$400 to \$750 make them highly desirable. These will increase in value at a comparatively rapid rate, and NOW is the time to buy to the greatest advantage.

Water-Front Subdi- vision Opportunity

Ninety acres, more than a mile of high, clean Water Front on Dona Bay and Robert's Bay, in the Venice Country at Southern Terminus Sea Board Air Line Railway, South of Sarasota, in Manatee County, West Coast of South Florida.

A turtle back peninsula with motorboat channel on each side and outlet to Gulf of Mexico. One mile from Fashionable Eagle Point Camp of M. L. T. Evans. 200 yards to Station—one and one-quarter mile to New Treasure Island Hotel.

Asphaltic concrete highway from Sarasota across the property. Tract will subdivide into about 80 large water front lots, for which there is immediate local demand at Venice. No drainage or development work will be necessary. An energetic salesman can double his money this season on local sales. Price \$12,500, \$5,000 cash, balance 1, 2 and 3 years at 6 per cent.

Also 450 acres, one and one-half miles water front on Sarasota Bay on asphalt concrete road near Sarasota, adjoining the magnificent Edson Keith estate, near winter home of Potter Palmer, Jr.

Lamar Rankin, 412 American National
Bank Building, Tampa, Fla.

BEST WINTER RESORT IN THE WORLD

Opinion Expressed By Anderson,
Ind., Citizen and Publish-
ed In Home Paper

The Anderson, Indiana, Bulletin publishes the following letter from a Miami visitor:

Miami, Fla., Feb. 2, 1917.

Editor Bulletin:

We expect to leave here next Tuesday, going by boat through one of the Everglade canals to Lake Okechobee, thence down the river to Ft. Myers, on the west coast. It takes three days, but as we are going through some Everglades it will be somewhat novel and worth the effort.

I think Miami the best winter resort in the world. While all of the southern Florida towns are fine, this is great, and tourists are very much overrunning the place. Although they claim 26,000 population and have many large hotels they can hardly take care of the multitudes from all sections. They raise very large quantities of produce of all kinds, and the city is very prosperous, building hundreds of new houses.

Carl G. Fisher of Indianapolis, and Mr. Hanan, the shoe manufacturer, have just completed palatial houses over on the ocean beach. There is a bridge spanning the bay about two and one half miles long, to reach the beach. James W. Knight, Dr. S. C. Willson, Clayte Sells and Charles Sells left yesterday for St. Petersburg, and G. A. Lambers and his party started today for the same section.

Values of real estate are very high, and the whole city is certainly on the map. The Scotch Highlanders band, one of the best, is employed to play in the park down on the bay about 8.30 a. m., 3.30 and 8 o'clock p. m., every day, for the benefit of the visitors, who seem to very much enjoy the music. They are very fine players.

The whole of Florida is coming to the front, and looks very much better than when we first visited it thirty-two years ago.

Very sincerely,
JOHN R. PAGE.

U. S. RUBBER EXPANDS

New Brunswick, N. J., Feb. 15.—Stockholders of the United States Rubber company, at a special meeting here confirmed the action of the directors in voting for an issue of \$60,000,000 of bonds. At the same time the stockholders of the Rubber Goods Manufacturing company, a subsidiary of the United States Rubber company, voted in favor of a general plan for a comprehensive bond issue. The two special meetings of stockholders also acted favorably on the proposed acquisition by the companies of plants and properties of which they already own all or substantially all of the capital stock.

PULPIT FIGHT WITH MAN WHO USED HIS FISTS

Sensational Feature of Sunday
Morning Service In St.
Petersburg Church

St. Petersburg, Feb. 15.—Services in the First Avenue Methodist church were violently interrupted Sunday morning, when A. L. Underwood, who is believed to be mentally unbalanced, started to deliver an address to a congregation that filled the church and then resisted ejection. A terrific struggle took place in the pulpit and the man was overcome only after six men had grappled with him. He was carried from the church still fighting and was placed under arrest by Detective Nichols who was summoned by telephone. The unfortunate man was turned over to his brother-in-law, and taken to North Carolina where he will be given a complete rest and treatment that will restore him to a normal condition.

During the fight in the pulpit Judge J. M. Endicott received a blow on the face and Harold Smith was kicked on the leg. Other men who aided in the ejection of Underwood were struck light blows during the fight.

After being locked in a cell at the police station, Underwood set fire to the bedding and burned a mattress and two blankets. He was given dinner but refused to eat it and climbed up to the top of the cage and threw plate and food to the floor. He stuffed paper into the sewer pipe and then tied down the string on the closet so that the water poured onto the floor and nearly flooded the jail. These actions indicated his mental condition.

Church services had begun with every seat filled, Sunday morning, when the pastor, the Rev. R. A. Carnine, made a short talk regarding a special collection to be taken up. The Rev. D. C. John, who was sitting in the pulpit with the pastor also spoke urging the collection's value. Underwood rose from his place in the body of the church and walked forward to the pulpit. He whispered to Dr. Carnine that he would like to make a few remarks. The pastor, thinking he was to speak along the same line as Dr. John, told him to go ahead. Walking to the front of the pulpit Underwood said:

"It is a novelty for me to speak from a Methodist pulpit although I speak from my own pulpit frequently. As you will find out later I am a Seventh Day Adventist. We worship on the Sabbath and you worship the beast."

Dr. Carnine then asked the man to stop talking and sit down and to this Underwood replied:

"You shut up yourself, I am going to talk."

Dr. Carnine announced a hymn and Underwood said:

"You can sing all you want to, I am going to talk until I have had my say."

A member of the congregation then called on somebody to remove the disturber. Judge Endicott rose and walked to where Underwood was standing and asked him to go out quietly. His reply was a blow which landed on Judge Endicott's face. Several men of the church then closed in on Underwood and he fought them all. They had a hard struggle and finally had to throw him to the floor and carry him out.

The struggle in the pulpit caused some excitement among the worshippers in the church but there was no confusion and only a half dozen persons left the church. After the unfortunate man had been put out of the church the regular service was resumed and continued to the usual conclusion.

Mr. Underwood has been superintendent of the Sunday school in the Adventist church here but recently resigned on account of his condition. His friends have been worried about him and suspected that his mind was affected. He has been one of the most reputable and best citizens in St. Petersburg.

THE COUNTRY WILL REMEMBER THE MAINE

Washington, Feb. 15.—The "wars and rumors of war" that fill the atmosphere at the present time are likely to attract more than the ordinary amount of public attention to this year's observance of the anniversary of the destruction of the battleship Maine in Havana harbor.

Reports from all sections of the country indicate that the anniversary is to be generally observed by the various patriotic societies and organizations of veterans.

In the capital the chief observance is to be held tonight under the auspices of the Army and Navy Union.

Keat Admiral Benson and several members of congress will be among the speakers. The secretary of the navy and the secretary of war have been invited to attend. Another notable participant in the exercises will be Rev. John P. Chadwick, who was chaplain of the Maine at the time of the disaster.

KILLS PAIN

STANDARD OIL CO. THRIVES ON GASOLINE

Pittsburg, Pa., Feb. 15.—A proposal to increase the capital stock from \$12,500,000 to \$20,000,000 was endorsed by the stockholders of the South Penn Oil company, a subsidiary of the Standard Oil company.

The action is a part of the general plan for the recapitalization of Standard oil on basis of present profits. The increase in capital is attributable to one word—gasoline.

The development of the gasoline demand in the last few years has far exceeded the expectations of the oil trade. It is not much more than a dozen years ago that gasoline was a waste product and burned under the stills.

Today it is the most valuable petroleum product, the demand for which the refineries have difficulty in keeping up with. Its present mid-winter price is 20 cents or more a gallon in most sections.

CUTTER TAMPA FIGURING IN BORNEO CASE

Will Patrol Motor Boat Regatta
Here, Then Proceed To
the North

Tampa, Feb. 15.—The U. S. coast guard cutter Tampa left port Monday morning, going out into the bay for drill, before going to Miami to patrol the motor boat regatta on the Alton Beach course, Feb. 15, 16 and 17. The cutter has been in port since Feb. 1.

The Tampa has figured in many rumors circulated about the city since Germany's unrestricted submarine warfare. Members of her crew visited the Austrian steamer Boreno upon two occasions, the first one being on the day following her arrival. Captain Satterlee declared it was merely a boarding party, making the customary visit and that it found everything in satisfactory condition.

The second visit to the Boreno by members of the crew of the Tampa was made last Wednesday and since that time a report is current that her engines have been disabled. Asked if it were true, Captain Satterlee said: "There is a persistent rumor to that effect, but I am not in a position to make any statement about the condition of the Boreno." He would not deny the report.

Captain Satterlee said he did not know whether the cutter would return to Tampa before going north to patrol the ice district, but thought it probable she would. The vessel goes north about the middle of March.

GEORGIA MANUFACTURERS CONVENTION AT SAVANNAH

Savannah, Ga., Feb. 15.—Plans for a comprehensive campaign to promote the industrial interests of Georgia are to be decided upon at a convention of the Georgia Manufacturers' association, which met in this city today with a large and representative attendance. The meeting will continue ever tomorrow.

...A Snap for Half Price...

To cash an emergency a client will sell at half the prevailing prices, 20 acres very near Moore Haven hotel, facing county road, and between canal and lateral and almost on new railroad right of way—should make a three for one investment in few months, when railroad is completed.

FINANCIAL NEWS

Furnished The Herald Daily By Clement D. Cates & Co., Jacksonville and Miami

New York, Feb. 15.—Logan & Bryan—Purchase of wheat on breaks seem to offer the best opportunities.
Thomson & McKinnon—Any definite relief in movement to seaboard would be quickly reflected in grain.

Clement Cates & Co.—The present political situation continues to favor sellers in wheat.

Ware & Leland—Think lower prices will be witnessed in wheat.

Summary: Bethlehem Steel special stockholders meeting adjourned to be convened on February 17 at 12 o'clock. Inspectors after checking resolution to amend certificate of incorporation of the Bethlehem Steel Corporation announced that stockholders voted for the resolution. Out of 148,820 common shares outstanding 112,156 voted for and 125 against. Germany reiterates that U-boat warfare will continue unrestricted. Secretary Lansing asks for full data on sinking of American cruiser by Austrian submarine in the Mediterranean. Great Britain to take possession of coal mines throughout the Kingdom for duration of the war. Cuban government claims victory in election held yesterday. Government forces are dispersing rebels except in Oriente province and Santiago City where trouble is mostly confined. Railroads extend freight embargo. Washington fears for safety of Ambassador Elkus at Constantinople and other Americans in Asia Minor. Bank of England rate unchanged at 5½%. Average price of twenty industrials 91.86, off 52; twenty rails 97.15, off 93.

Stock Market Opinions—Ware & Leland: Buy on recession for a turn. Steels, Coppers and American Woolen.

Logan & Bryan: Security prices taken as a whole have reached a level from which it does not seem probable that advantages of particular importance will accrue to sellers.

S. B. Chapin & Co.: It does not seem advisable to be increasing speculative commitments under existing conditions.

Thomson & McKinnon: Would buy stocks on any declines that may occur.

Cotton: Logan & Bryan: Influences surrounding the market at the moment we do not think, are not favorable to the bull side.

S. B. Chapin & Co.: The political situation certainly does not make the bull side of cotton look attractive.

Thomson & McKinnon: There is no mistaking the supply and demand situation is very bullish.

Cotton: Liverpool cables due 10½ to 14 points lower. Opened easier at 14 to 15 points decline. At mid-day the market was easy at a net decline of 9 points on October and 19 to 25 points on other positions. Spot cotton in good demand at 30 points decline; middling 10.80d. Sales 10,000 including 9,000 American. On this basis New York is due to open as follows: March 15.86; May 16.07; July 16.11; October 15.80.

Weather: A disturbance which was over the southwest Tuesday night moved eastward and was central over the lower Mississippi valley last night. It was attended by no rains. Elsewhere cloudy weather prevailed but without precipitation. Rain is indicated for South Atlantic and East Gulf states today; fair tomorrow. Other states will have generally fair weather today and tomorrow.

Grain Letter

New York, Feb. 15.—First notice day on March cotton is February 23. Car Lots: Wheat 46; 0; 46; 144. Corn 196; 12; 201; 424. Oats 101; 42; 99; 120.

Stock Yard Report: Hog receipts 35,000, steady at yesterday's average. Left over 13,100; top price 12.55. Cattle receipts 7,000, steady; sheep 15,000, slow.

Stock Letter: It is likely to be a waiting market. Until we know the worst of the best, which ever it may be for the future of the country, no one is willing to take any big position. Shorts covered in rails and now they are petered out. The little boom in munition stocks is halted. Standard rail shares the best are the heaviest. Opinions are worthless because there is nothing on which to base them. E. F. Hutton & Co.

Cotton Letter: The Liverpool market is reactionary. Cables materially lower. Public interest is small. Violent fluctuations likely to continue. At present rate consumption will leave little cotton at end of season. Ultimately much higher prices seem likely. Ettleson.

The French steamer Chicago has arrived at Bordeaux, France. •Harris

Winthrop & Co.

Grain—Wheat: Yesterday's sinking of United States steamers are not construed as an overt act. None the less there is a disposition to construe it as bullish. Clearing up of freight congestions are necessary if prices are to be further advanced.

Amsterdam—Berlin wires the Kaiser has returned to Berlin after a conference with headquarters.

ABS being bulled account trouble in Cuba. Think floor will rally the market. Francke. 9:25 a. m.

Cotton: Liverpool big buyer of cotton. H. W. & Co.

Grain: Wagner selling wheat. 9:35 a. m.

Standard Oil of California declared dividend of 33 1-3 per cent.

Stocks: Stocks strong in a dull. Some realizing which is well taken.

Regular dividend National Lead.

Block Maloney buying wheat. 10:25 a. m.

London—The British steamers Gilicia 3,750 tons and the Ferga have been sunk in the barred zone. Dow Jones, 10:30 a. m.

Forecast: Grain belt—Part cloudy today and Friday. Colder except generally fair Dakotas, Nebraska and Kansas.

Cotton: Liverpool, the trade and local bulls buying. Some local covering.

Texas spot houses bought May. Liverpool been a good buyer of May, July and October. Forecast is for fair weather in western belt with freezing in the interior of eastern Texas.

King Farnum buying wheat. 10:32 a. m.

REWARD OFFERED IN AN ATTEMPT TO PROTECT ROBINS

Tampa, Feb. 12.—The killing of robins in the city of Tampa has become so flagrantly offensive recently that Dr. Herbert R. Mills, in the name of the Florida Audubon society, has offered a reward of \$10 to anyone that will furnish information that would lead to the arrest and conviction of any person killing these birds, not only within the city limits but anywhere in the state. The robin is protected by both state and federal statutes and the fine for killing or having

in possession is \$25 for each offense. The police department will be on the lookout for violations of the law protecting the robin and other non-game birds, and cases outside the city will be handled through the sheriff's office. It is stated that there are an unusual number of robins in Florida this winter, a few being seen as far south as Paradise key near Key Largo. Their presence in Tampa adds much to the interest and attractiveness of the city.

Yesterday about noon it is affirmed that an unknown party fired with a shotgun into a flock of about 100 robins in a vacant lot near the corner of Tampa street and Ross avenue, killing six birds, and a few days before another party bagged thirty on the corner of Florida and Seventh avenues.

The intelligent people of Tampa Heights are indignant over this contempt of law, this abandon of human-

"TIZ" PUTS JOY IN SORE, ACHING FEET

"My, how 'Tiz' gladdens tired, swollen, burning feet—It's glorious!"

Ah! what relief. No more tired feet, no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, bunions.

No matter what ails your feet or what under the sun you've tried without getting relief, just try "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which puff up the feet. "Tiz" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.

Get a 25-cent box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole year's comfort for only 25 cents. Think of it.

ity and common sense. One man said, "It's an outrage to kill so gentle a bird, I have seen them nest in the dooryards up north, and in the evening they sing in a way that ought to make the mockingbird ashamed of himself."

Information regarding the killing of robins and other protected birds should be filed with Dr. H. R. Mills, 111 West Ross avenue, and the reward of \$10 will be paid upon the conviction of the guilty parties.

SIGNAL CHIEF OF THE ARMY RETIRES

Washington, Feb. 15.—The official life of one of the best known officers of the United States army expired today, when Brig. Gen. George P. Scriven, chief of the signal service, was placed on the retired list on his own application.

General Scriven is a native of Philadelphia, who, prior to going to West Point, studied at the University of Chicago and at the Polytechnic Institute at Troy, N. Y. His first assignments as a soldier commander were to the infantry and artillery arms of the service, but in 1890 he was assigned to the signal corps, and in 1913 he was appointed chief signal.

During the war with Spain, General Scriven was in charge of the signaling in the department of the Gulf. In Cuba, in the Philippines and the China relief expedition of 1900 he admirably served the army. In the latter campaign he won from General Chaffee a recommendation of reward for his gallantry. He is one of the leading American authorities on aeronautics. Some of his writings on technical military problems have won him official recognition and professional renown.

General Scriven will be succeeded as chief of the signal corps by Lieutenant Colonel George O. Squier, who for some time has been acting as assistant chief signal officer and has been in direct charge of the aviation service.

SNOWSHOE TRIP FOR SOCIETY WOMEN

Denver, Feb. 15.—Seven Denver society women and girls, members of the Colorado Mountain club, have arranged to accompany an expedition which will leave Estes Park on snowshoes tomorrow, and, crossing toward the continental divide, over the huge drifts of winter snow, will make a thirty-mile circuit through the Fern lake and Odessa lake regions. The trip will take three days.

Yes,—
Southern
Folks
Know What
Is What

We know Sheep from Goats— Get over Baby talk— and stop Salting Birds' Tails—

Down South here folks are mighty keen on sizing things up. We know how to tell the sheep from the goats. There isn't much sense trying to pull the wool over our eyes.

It must be the way we're raised. We get over baby talk pretty early. We soon stop trying to put salt on the birds' tails. We learn it's no use to fib.

Yes—we get pretty wise. And I'm mighty pleased to know that millions of men of the South are smoking me—

SOVEREIGN. It's a compliment—it proves that I must be right—that I must be of the finest.

So, I say to myself:—"I am worthy of these fine friends of mine,—I keep myself clean, and sweet, and pure,—I see to it that I live up to my every promise."

And so when my friends refer to my good old Virginia and Carolina stock, and my fine, white, cleanly home—I certainly am proud. Because—

You Folks of the South KNOW good blood!
You folks of the South KNOW good tobacco!

I want you all to believe in me,—I want every cigarette smoker here in the South as a friend. And why not?—I am SOVEREIGN! "King of them All." Here's another good word for me—

I am guaranteed by The American Tobacco Co. —Buy me. If you don't like me return me to your dealer and get your money back. I have said it. A Southern gentleman is known the world over for keeping his word, and I have given you mine.

Sovereign Cigarettes

FOR THE GENTLEMAN OF THE SOUTH
"King of Them All"

COUNTRY HAS BEFORE BROKEN RELATIONS

Twice Intercourse Has Been Suspended and Ambassadors and Ministers Ordered Home

(Special to The Herald.) Washington, Feb. 15.—The United States has on two previous occasions broken off diplomatic relations with another country and withdrawn the American envoy without that act being followed by a formal declaration of war or an outbreak of hostilities. But both of these breaches were with countries almost incomparable with Germany in their strength of importance. The causes of the difficulty were also in both instances almost incomparable in their importance with the issues involved in the present severance of relations with Germany which concern the violation of the rights of Americans to travel unmolested on the high seas and ruthless sacrifice of their lives by submarine attacks. The two breaches of the past referred to were with Brazil in 1827 and with Mexico in 1858. They were both trifling affairs, unimportant in their consequences and did not last long. The present severance of diplomatic relations with Germany, accompanied by the dismissal of Count Johann von Bernstorff and the withdrawal of American Ambassador Gerard, was a deliberate act, taken by the president of the United States after warning had been given to Germany that such action would be taken under certain conditions, whereas the two previous breaks were committed by the American envoys on their own initiative and without consultation with the state department or the president. On the two previous occasions the countries to which the American emissaries were accredited did not withdraw their representatives to the United States as was done in the present controversy with Germany. In 1827 the United States severed diplomatic relations with Brazil be-

SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys at once when Back hurts or Bladder Bothers —Meat forms uric acid

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

cause some of the Brazilian naval officers had practiced some principles in relations to blockade and to neutral navigation which the United States would not sanction and which American naval officers resisted. The first steps in breaking off these relations was taken by the American charge d'affaires, who, under the impression that his representations in behalf of the rights and interests of American citizens were totally disregarded in the diplomatic discussions at Rio Janeiro following the offenses complained of, considered it his duty, without waiting for instructions, to terminate his official functions, to demand his passports and return to the United States. "This action, dictated by an honest zeal for the honor and interest of his country—motives which operated exclusively on the mind of the officer who resorted to it—has not been disapproved by me," said President John Quincy Adams, in referring to the incident, in his annual message to congress on December 4th, 1827.

The Brazilian government, however, complained of the hasty action taken by the American charge d'affaires, which Brazil held as unwarranted, and upon its explicit assurances by Brazil that a successor to the late representative would be received and treated with respect due his character, and that indemnity would be promptly made for all injuries inflicted on American citizens and their property, another charge d'affaires was appointed and the ordinary diplomatic intercourse and friendly relations restored. The breach in diplomatic relations with Mexico, which occurred in 1858, was brought about by the levying by the Mexican government of contributions from all capital in the republic, whether held by Mexicans or foreigners.

Mr. Forsyth, the American minister to Mexico, regarded this decree an enforced loan and protested against its application to his countrymen. He advised them not to pay the contribution but to make Mexico forcibly extract it. Acting upon this advice, an American citizen refused to pay the contribution, and his property was seized by armed men to satisfy the amount. Not content with this, the Mexican government proceeded still further and issued a decree banishing him from the country.

Minister Forsyth immediately notified the Mexican government that if this decree was carried into execution he would feel it his duty to sever relations. Despite this warning, the banishment was enforced and Forsyth promptly announced to Mexico the suspension of political relations of his legation with them until the pleasure of his own government could be ascertained.

President Buchanan did not regard the forced contribution imposed by Mexico to be in the strictest sense a "forced loan," and as such prohibited by the treaty of 1826 between Great Britain and Mexico to the benefits of which American citizens are entitled by treaty, but considered the imposition an unjust and oppressive measure.

The efforts of Minister Forsyth to adjust the matter failed and on Forsyth's assurance that no favorable change could be expected until the United States should "give striking evidence of their will and power to

protect their citizens" and that "severe chastening is the only earthly remedy for our grievance." President Buchanan considered it idle to demand that he retire his steps and his withdrawal was sanctioned, and diplomatic relations severed. An amicable adjustment was reached shortly afterwards. There have been instances almost without number in American history where the United States government has dismissed ambassadors, ministers and envoys delegated to this country by other nations, without formally breaking off diplomatic relations with those countries or later going to war with them. History also records innumerable occasions where actual hostilities have been commenced without the recall of envoys, the breaking off of relations or the serving of a declaration of war. In fact it was quite a common practice in Europe many years ago to fully prepare for attack and strike a staggering blow against another nation without giving any warning whatever.

The United States has dismissed over a score of representatives of other governments in this country, chiefly for personal reasons. The first to be dismissed was a representative of the French government when Washington, while president, asked the French government to withdraw. The latest instance was that of Ambassador Constantin Theodor Dumba, of Austro-Hungary, whose recall was requested of his country by President Wilson in 1915, because of charges that he had encouraged the campaign to cripple American industries turning out war supplies for the European allies. Edmond Charles Genet, sent here in 1793 by the French committee of safety, following the execution of Louis XVI, became so active in fitting out privateers to prey upon British commerce that Secretary of State Jefferson, at the instance of George

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't stay gray! Here's a simple recipe that anybody can apply with a hair brush.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair. A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Drink--- P-I-N-A-P-A

If you are suffering from indigestion try a bottle of PINAPA just before your meal; it will do you no harm; it may do you lots of good. In Cuba it is used by many families as a table drink instead of wine. Our sales in Havana, Cuba, commencing January 1st, 1916, up to December 1st, 1916, was over 300,000 cases.

This proves its popularity. PINAPA is the pure juice of our Florida pineapples made into syrup and carbonated.

P-I-N-A-P-A is our leader and sold under its own label. We also put up pure fruit juices under our Miami Ocean Beach Brand.

DIXIE HIGHWAY TRACT

To those residing permanently in Miami and to tourists here for the season

J. A. Gates & Son, have a message.

We have formulated a plan whereby we can greatly reduce the price of real estate to purchasers, cause the business of real estate to be more highly respected, and to be more enjoyable and satisfactory to those engaged in the traffic.

We purpose to sell lots in a tract by employing hired salesmen just as a merchant sells goods in his store by clerks in his employ. Parties visiting our Dixie Highway Tract, now being offered, will be shown over the tract by our salesmen. A tag bearing the lot and block number and price of lot is attached to a stake placed in front of each lot, to be detached by purchaser and presented at office of tract owner, where papers in settlement will be drawn.

We can, we believe, by this method save purchaser 25 per cent or more and complete the transaction most expeditiously and satisfactorily.

We especially call attention to location of our Dixie Highway Tract. It adjoins the Charles Deering place on the north and extends from Dixie Highway to Bay View Ave., overlooking the Bay. All inside lots are held at a uniform price of \$195 each, corners \$300. If in this connection you note the fact that lots in Flander's tract which adjoins the Charles Deering place on the south are held at prices ranging from \$3,000 to \$5,000, and are on lower land; you will readily see that lots in Dixie Highway will certainly appreciate rapidly in value with the growth of Miami and that you will make no mistake in buying now. Is it unreasonable to expect an advance of one hundred per cent in values within one year. May we not urge those of our home people thinking to secure a lot while cheap in price and most attractively located to select now. May we not urge tourists seeking a place for building a winter home to visit us; and may we not especially urge builders who want to get a bunch of lots on which to build houses to sell or rent to select now while the selecting is good—the bunches are unbroken. Dixie Highway Tract has many advantages, such as electric lights, telephones, jitney buses about half hourly, ice, meat, groceries delivered daily, daily mail delivery, high school, churches, literary clubs, fraternities, and other advantages of a happy and cultured community.
